Why should I work with Nomen Global?

Working with Nomen Global is easy and is the best way to send international students to the United States because we offer cutting-edge teaching techniques and superior language acquisition.

How are Nomen Global's teaching techniques superior to other language schools?

Nomen Global utilizes a skills-based teaching approach rather than a text-based teaching approach. Skills-based teaching integrates multiple teaching resources and methodologies rather than following one single text. This method gives the teachers the ability to insert their own personalities and teaching ideas, while giving the student a more complete grasp of the skills being taught.

How is Nomen Global better for me?

Our independent agent system puts you in control. You can work as much or as little as you desire, which means you can make as much money as you desire. We offer you monthly commission payments, which include statements and reports on your recruiting activity. We also offer you more flexibility and more opportunity with a wide variety of educational programs and start dates so you can put students on a path to success while realizing your own personal, professional, and financial goals.

Are there any quotas that I have to meet?

No. Our agent contract gives you the freedom of working at your own pace. That means no pressure from us and all the benefits for you.

How is my commission amount calculated?

The commission is based upon a percentage of the tuition paid by each student recruited by the agent.

When and how do I receive my commission?

If your student has arrived and paid tuition, then you can expect a commission payment to be sent within 30 business days. Nomen Global can send the payments in a number of ways:

- Mailed company check

- Electronic wire transfer (Fee for wire transfer deducted from commission amount)
- Direct pick up

What type of Visa are the students I work with going to receive?

Nomen Global Language Centers, Inc. is federally authorized to enroll nonimmigrant alien students. This means Nomen Global can issue the I-20 document, which allows students to apply at the United States Embassy or Consulate for an F-1 Visa.

How many students actually receive F-1 Visa approval?

Due to extensive visa research and detailed student preparation, Nomen Global enjoys over 75% success rate for F-1 Visa approval.

How can I keep track of the students I'm currently with and have sent to Nomen Global?

After you have applied and have been approved, we will provide you with an "Agent Kit" which contains tracking forms, contract forms, sales tips, and sample flyers to help get you off and running! We also will provide you with a statement each month outlining students who have arrived and paid in that month.

I don't have a work permit in the United States. Can I still be an agent?

Yes! Since you will become an independent contractor, not a Nomen Global employee, you do not need a U.S. work permit. Becoming an independent contractor helps to avoid the tricky and sometimes confusing international tax laws and regulations that surround international employees. Being an independent contractor provides you with the flexibility and directness you need to succeed!
